

Plans are coming together to transform Alexandria

an ambitious long term vision for the future of the town, and everyone who lives and works here.

See what the future might hold for Alexandria

Tell us what you support and how else to unlock Alexandria's potential

West Dunbartonshire Council has been developing a series of projects which focus on the town centre. In parallel with that, Alexandria Community Action Network (ACAN) is starting to prepare a 2030 vision for the whole town.

We want to check with you that we're going in the right direction. We'd like to ask for your support for the town centre projects and elements of the 2030 vision that you think will best unlock Alexandria's potential.

Please visit the website to have your say on the proposals for the town centre and 2030 vision:
