

Balloch Castle Country Park Regeneration Group

Support our Riverwoods Pioneers Proposal

Riverwoods is an initiative, launched in 2019 by the **Scottish Wildlife Trust**, to create a network of thriving riverbank woodlands and healthy river systems across the whole of Scotland. The Riverwoods Pioneers project in particular aims to identify Riverwoods projects that have the potential to be financed using new mechanisms that go beyond traditional grants.

We think Balloch Castle Country Park is a perfect example of just such a project, which is why we have submitted a proposal – **Don't Let Balloch Castle Country Park Sink**. This could be a fantastic opportunity to generate funding for improving the park in a sustainable way.

Vote NOW for our Riverwoods Pioneer Proposal to help Balloch Park win funding for nature restoration. Voting closes on November 30th 2022.
